0.20%

How Trace makes it happen

Cross-border payment architecture

With Arq IP

A foreign payer sends USD/USDC to Arqu Argentina, which routes it through Pix Inc abroad. At the border Pix Inc converts USD/USDC to BRL into its Brazilian Non Resident Account, then the Arq IP pays out BRL to the Brazilian beneficiary.

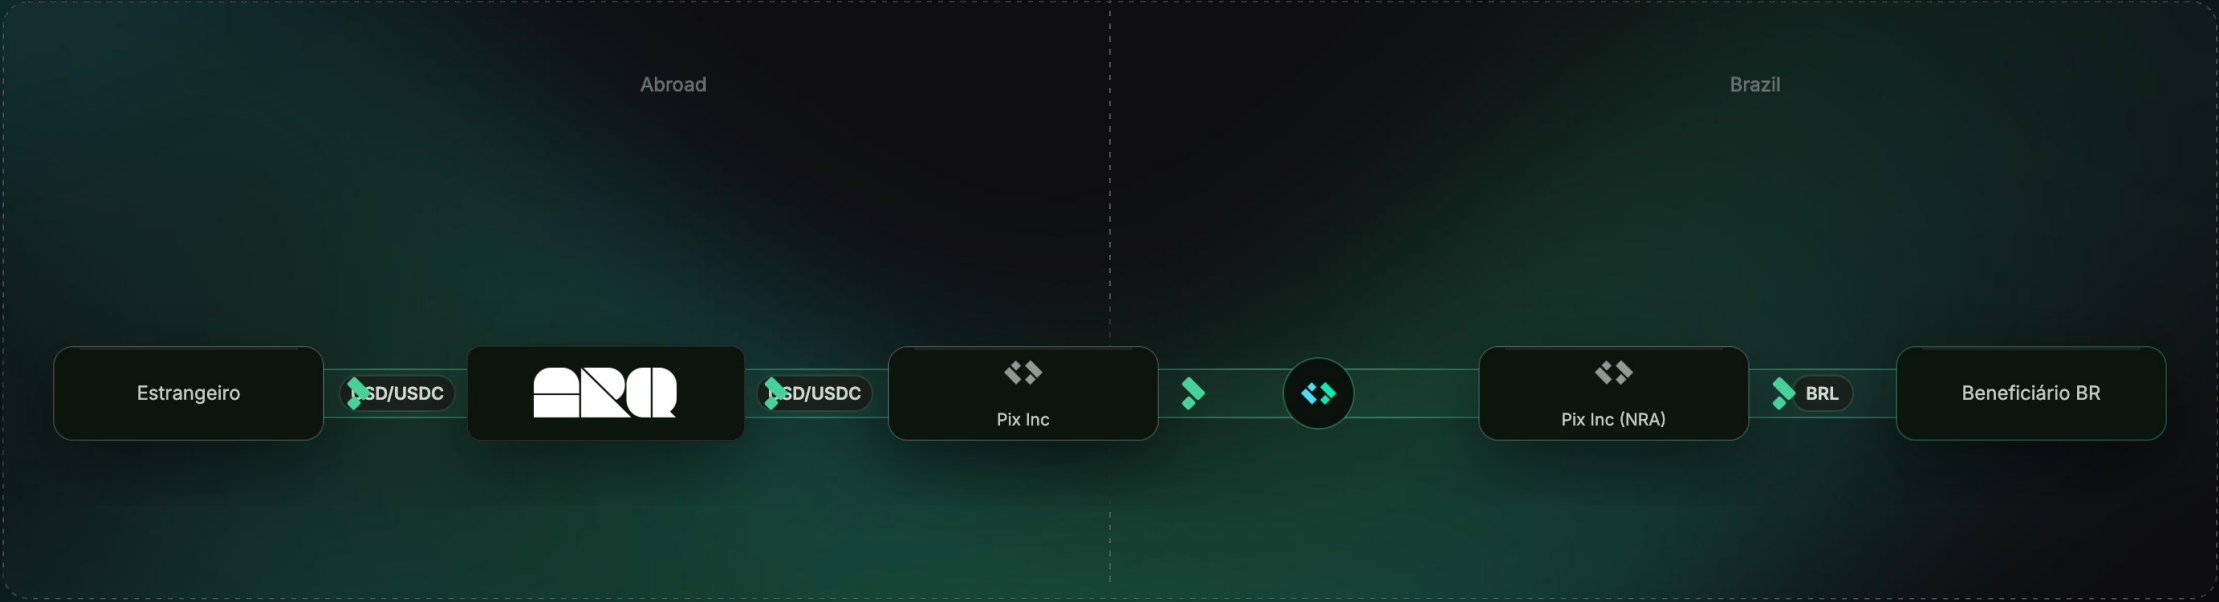

How Trace makes it happen

Cross-border payment architecture

Direct

A foreign payer sends USD/USDC to Arqu Argentina, routed through Pix Inc abroad. At the border Pix Inc converts USD/USDC to BRL into its Brazilian Non Resident Account, which settles BRL directly to the Brazilian beneficiary.
